

# Where to park at Alta View Hospital Starting February 2019

## **PATIENT AND VISITOR PARKING** is marked in green.

- **Women's Center patients and patients who come to Outpatient Imaging, Outpatient Lab, Infusion Clinic, Sleep Services, Dexa Scan, and Mammography** should use the 1300 East entrance and park near the outpatient entrance on the east side of the campus.
- **Mothers in labor:** If mothers in labor enter through the north side of the new patient tower rather than the outpatient entrance on the east side of campus, they'll be met and wheeled through the secured entrance by the ED to Labor and Delivery.
- **Free valet parking is available weekdays from 8 a.m. to 5 p.m.** Valet services will be provided at the outpatient entrance on the east side of campus and at the main hospital entrance (level 0) on the west side of the new patient tower.
